The sequel to Along Came a Demon: I'm Tiff Banks and I talk to the violently slain. I've learned to live with that, in fact I've made a career out of it. Ex-detective Royal Mortensen and I opened our own investigative agency, and I thought we made a good team. I felt secure in our personal relationship too, until our new clients turned up.

I'm told the dead are all around us. I wouldn't know about that. I see only the violently slain. They could be victims of hit-and-run, innocents caught in cross-fire, the murdered. I've come to terms with that. In fact, I've made a career out of it. They whisper to me and they never, ever, forget the face of their killer. They aren't the only supernatural things I see. No, they're not vampires, werewolves or fae - those things don't exist. We live side by side with what some call the Otherworldly. That's too much of a mouthful for me. I call them demons. If you saw them as I do you'd know why. Right now I'm trying to find a missing boy whose mother was murdered. Or was she murdered? To further complicate the case, Clarion PD gave me a partner I would rather shoot than work with. I can't tell them he's a demon. They'd think I'm crazy. I'm Tiff

Banks. Welcome to my world. Whisperings. Paranormal mystery with a splash of humor and dash of romance.

The sequel to Along Came a Demon: I'm Tiff Banks and I talk to the violently slain. I've learned to live with that, in fact I've made a career out of it. Ex-detective Royal Mortensen and I opened our own investigative agency, and I thought we made a good team. I felt secure in our personal relationship too, until our new clients turned up. Why did Royal take them on without consulting me, and why are they withholding information which could help solve their case? I don't think they're human, and Royal knows exactly what they are, but refuses to tell me. I think there's a lot Royal isn't telling me. I discovered that while I looked into the disappearance of author Gia Sabato's lover, Royal investigated something far more sinister. Are the two cases connected? Does an authentic nineteenth-century journal have anything to do with either? When the case turns ugly, so does my relationship with the one man I've come to trust. So I'll do what I do best: pound the pavement and talk to dead people. The dead are always watching, they can do nothing else. They whisper to me.

Quinn is a normal teenager, but for 23 days she has not slept for more than a few minutes at a time. Demons have invaded her dreams, stalking her and whispering of her death. The lack of sleep and crippling fear are ruining her life, and energy drinks and caffeine pills don't help. Then Quinn dozes off in the school hallway, and Aaron, an amnesiac with psychic ability, accidentally enters her nightmare. Aaron has a secret locked away in his memory that the demons are determined to keep him from discovering. Together, Quinn and Aaron can banish

the darkness back to the underworld for good, but the demons will stop at nothing to drive the two apart.

Alexandra is a normal teenage girl just trying to make it through her relatively miserable high school life. Her aunt has done her best to raise her since her parents died, and her best friend Sam is a blessing in her somewhat bleak life, even though every other member of the opposite sex seems to leave her tongue tied and flustered. But her life takes a shift for the worst just before her eighteenth birthday, kicked off by a nightmare that has more meaning than she's ready to accept. When she is suddenly thrust into a world of demons, held captive by the handsome and dangerous prince Balthazar, she has no choice but to strike a bargain with him. She helps him unleash the power that he needs to hold his newly acquired kingdom together, and in return he agrees to send her home. But when unwanted feelings of attraction begin to arise, the demon prince finds it a bit too hard to let her go so easily. And Alexandra isn't quite sure she's ready for him to let her go.

"Compulsively readable." —New York Times Book Review The extraordinary new thriller from Stuart Turton, author of the bestselling murder mystery *The 7 1/2 Deaths of Evelyn Hardcastle*, winner of the Costa Best First Novel Award. A murder on the high seas. A remarkable detective duo. A demon who may or may not exist. It's 1634, and Samuel Pippis, the world's greatest detective, is being transported to Amsterdam to be executed for a crime he may, or may not, have committed. Traveling with him is his loyal bodyguard, Arent Hayes, who is determined to prove his friend innocent. Among the other guests is Sara Wessel, a noblewoman with a secret. But no sooner is their ship out to sea than devilry begins to blight the voyage. A strange symbol appears on the sail. A dead leper stalks the decks. Livestock dies in the night. And then the passengers hear a terrible voice, whispering to them in the darkness, promising three unholy miracles, followed by a slaughter. First an impossible pursuit. Second an impossible theft. And third an impossible murder. Could a demon be responsible for their misfortunes? With Pippis imprisoned, only Arent and Sara can solve a mystery that stretches back into their past and now threatens to sink the ship, killing everybody on board. For fans of Steven King, *The Devil and the Dark Water* brings a chilling new spin to the Sherlock Holmes detective duo in a thriller of supernatural horror, occult suspicion, and paranormal mystery on the high seas.

A San Francisco shut-in is forced to leave his apartment to investigate the murder of his maintenance man in this "offbeat mystery that, at its heart, is an in-depth character study (Foreword Reviews). At forty-seven, balding, and mildly agoraphobic, Internet troll Roy Belkin is a man without direction. He rarely leaves his apartment (he refers to the outside world as The Pounding), and when he must leave, he meticulously recounts the day in his Thunder Book; a journal where he lists all that repulsed him that day. But everything changes the day Belkin returns to his apartment to find the building ablaze along with the suspected murder of the apartment building's maintenance man. As police question him, Belkin meets the mysterious Pernice Balfour, the alluring, religiously obsessed neighbor accused of the crime. Soon, Belkin has no choice but to come out of his shell (and his apartment) to try to clear her name. But the more Belkin investigates, the muddier things become. Wandering through San Francisco's seedy Tenderloin district, Belkin begins to unravel the truth behind the murder, and encounters a bizarre series of characters and situations: pansexual crime-scene photographer, an idiot detective, and an all-knowing government operative. Whispering Bodies perfectly tangles comedy and pathos. I've talked to a few heads who have compared it to A Confederacy of Dunces, and that makes sense. The Rumpus Jesse Michaels debut novel is a unique and side-splitting performance, punctuated by a whip smart narrative and magnetic prose. A dizzying combination of Flann O'Brien's The Third Policeman and Kurt Vonnegut, if he were a hostile agoraphobic. Alex Green, Caught in the Carousel

Kara and Taff will meet other inhabitants of the Thickety in their search for a safe way out, including the infamous witch, Mary Kettle. Experiences of hearing the voice of God (or angels, demons, or other spiritual beings) have generally been understood either as religious experiences or else as a feature of mental illness. Some critics of traditional religious faith have dismissed the visions and voices attributed to biblical characters and saints as evidence of mental disorder. However, it is now known that many ordinary people, with no other evidence of mental disorder, also hear voices and that these voices not infrequently include spiritual or religious content. Psychological and interdisciplinary research has shed a revealing light on these experiences in recent years, so that we now know much more about the phenomenon of "hearing voices" than ever before. The present work considers biblical, historical, and scientific accounts of spiritual and mystical experiences of voice hearing in the Christian tradition in order to explore how some voices may be understood theologically as revelatory. It is proposed that in the incarnation, Christian faith finds both an understanding of what it is to be fully human (a theological anthropology), and God's perfect self-disclosure (revelation). Within such an understanding, revelatory voices represent a key point of interpersonal encounter between human beings and God.
