*possible - Mayo Clinic*

Pain from the cancer can be caused by a tumor pressing on nerves, bones, or organs.

Spinal cord compression:

When a tumor spreads to the spine, it can press on the nerves of the spinal cord.

# File Type PDF Cancer Pain

This is called spinal cord compression. The first symptom of spinal cord compression is usually back and/or neck pain, and sometimes it is severe.

*Facts About Cancer Pain*

*Page 21/44*

# File Type PDF Cancer Pain

Pain is one of the most common symptoms in cancer patients. Pain can be caused by cancer, cancer treatment, or a combination of factors. Tumors, surgery, intravenous chemotherapy, radiation therapy, targeted therapy,

PAH-thik) pain happens when your nerves get damaged by the cancer, chemotherapy, or a tumor pressing on them.

*Cancer Pain Management -  
What You Need to Know*

It's important to be aware

# File Type PDF Cancer Pain

of any unexplained changes to your body, such as blood in your pee or poo, a lump, persistent bloating or pain that does not go away. These symptoms are often caused by other, non-cancerous illnesses, but it's

# File Type PDF Cancer Pain

important to speak to your GP so they can investigate. Finding cancer early means it's easier to treat.

*Cancer - Signs and symptoms  
- NHS*

Nasal and sinus cancer

# File Type PDF Cancer Pain

affects the nasal cavity (the space behind your nose) and the sinuses (small air-filled cavities inside your nose, cheekbones and forehead). It's a rare type of cancer that most often affects men aged over 40.

# File Type PDF Cancer Pain

Nasal and sinus cancer is different from cancer of the area where the nose and throat connect.

*Nasal and sinus cancer - NHS*  
Cancer patients express greater fear of dying in

# File Type PDF Cancer Pain

pain (i.e., suffering) than dying. Family and friends also suffer as they witness the pain and anguish experienced by a loved one with cancer. Every country, community, and family in the world is affected by cancer
