There is a very good reason why it is called the information super-highway. Because that is exactly what the Internet is. Most people turn to the Internet for the purpose of getting answers to questions about everything you can imagine and a few things you would never want to try to imagine. They buy things and sell things...both require information. They search for ways to make money using their computers...for that they REALLY need information. They search for information about the illnesses they or their family face or they research projects for work or school. Information is THE Internet commodity that almost everybody with a computer wants - and will pay for, even if available for free. Information is the ultimate

New products often fail not because they are bad products, but because they don't meet consumer expectations or are poorly marketed. In other cases, the marketing is spot on, but the product itself does not perform. These failures drive home the need to understand the market and the consumer in order to deliver a product which fulfills the two equa

before... Understanding the working mechanisms of the divine technology... A Wonderful Mental journey... Amazing Facts... All These and Even More are Waiting for You! Come With Us for This Extraord?nary Journey of Discovery! Let's Get Acquainted With the Books Discover?ng the Secret of the Universe! This book is penned down in order to introduce you a piece of work, that is so unbelievably and astonishingly perfect that it will surprise you with the high truths and grand scientific discoveries contained therein and will make some of you say "How come I have never heard of it until now!" (Or could not really discover it). The main subject of study of these books is the following: To give correct answers to three basic questions of existence, which have remained as the unknown secrets of the universe that have been always

wondered by the humanity. The discovery of the right answers in these areas has been possible not only with the use of the mind/intellect which is incapable of reaching to the truth on its own but rather with the common guidance of divine revelation and the mind. Nevertheless, the answers to the questions that were asked have been discovered solely with rational inferences and logical evidences. These three questions are: "Where did this universe and those within it come from? Where will they go? And Why are they here, what is their mission? That is to ask "What are we doing here?" High truths, which the whole humanity needs and which are appealing to all those who look for the explanation of the basic reality of existence and which is more interesting for the world of science and the scientists and which is

Brought by divine revelation, are discovered once again and proved with rational methods in these works. Especially today, while quantum physics, astronomy and astrophysics have reached to such advanced levels, common answers are looked for these three questions on matter, universe and human being; the science and these works study the same subjects and share a common ground of work. Here you are: The work, which contains in itself a spiritual/immaterial treasury for people who have an irresistible interest and passion for science and learning, is called RISALE-I NUR (TREATISE OF LIGHT). The content of the book is composed of 19 basic epistles selected from the Collection of Risale-i Nur. Some selected parts related to the subject from 23rd Word Epistle of Nature, Epistle of Resurrection, first eight

Words and some other epistles are included in our book. The main texts from Risale-i Nur are placed in the beginning, the words and concepts are explained in the footnotes and the explanatory texts are provided afterwards. In addition, occasionally, as the need arises, explanatory texts are included within the text of the book in the form of an intermediary note. The first part of our book, which consists of two main sections is entitled as “Discovering the Value of the Treasure of Faith.” In this section, the following is presented: the meaning and the importance of the faith and worship, which are proposed by the Religion to the man; how the hidden secret of the universe is solved by the religion; the beauty of faith and how the true value of man comes to light with faith, and the levels of Qur’an and philosophy in terms of

Understanding the Secret of the Universe. Finally, we are trying to look closely at the great good news and the remedy for death brought by the religion through prophets and we are looking for the answer to this question: “What are the characteristics of true faith that will enable us to earn the eternal life?” We can regard this first part as the understanding of how great and precious a treasure is. The second part of the book is entitled as ” Proving the Existence of the Treasure of Faith with Evidences”. In this section, six pillars of faith are proved with detailed evidences. In other words, in the second section, the existence of the treasure sought to be achieved, whose value is understood/appreciated in the first section, is proved; its place is discovered, and this great and magnificent treasure is

acquired. Primarily understanding that faith is such a great blessing and a treasure with a great value would determine the importance that we would give to that treasure and its evidences. Nevertheless, you will also observe that in the first part, a serious effort has also been made to search for the truth and evidences. Once you complete the book, you will have completed an important reading that could be considered as a brief summary of the Risale-i Nur collection and taken a serious step in studying the high knowledge of faith that is taught by these works. In “The Journeys of Discovery Risale-i Nur Training Program”, you are invited for an adventure of looking for and finding out the truth. We have a very strong reason to begin this journey: to witness the magnificent details of the divine technology and uniqueness

Proceedings were carefully reviewed and selected for inclusion in this four-volume set. The 66 papers included in this volume are organized in topical sections on design theories, methods and tools; user experience evaluation; heuristic evaluation; media and design; design and creativity.

Every day we interact with thousands of consumer products. We not only expect them to perform their functions safely, reliably, and efficiently, but also to do it so seamlessly that we don't even think about it. However, with the many factors involved in consumer product design, from the application of human factors and ergonomics principles to reducing risks of malfunction and the total life cycle cost, well, the process just seems to get more complex. Edited by well-known and well-

Respected experts, the two-volumes of Handbook of Human Factors and Ergonomics in Consumer Product Design simplify this process. The first volume, Human Factors and Ergonomics in Consumer Product Design: Methods and Techniques, outlines the how to incorporate Human Factors and Ergonomics (HF/E) principles and knowledge into the design of consumer products in a variety of applications. It discusses the user-centered design process, starting with how mental workload affects every day interactions with consumer products and what lessons may be applied to product design. The book then highlights the ever-increasing role of information technology, including digital imaging, video and other media, and virtual reality applications in consumer product design. It also explores user-centered aspect of
