This collection of essays explores the reception of classics and translation from modern languages as two different, yet synergic, ways of engaging with literary canons and established traditions in 20th-century Italy. These two areas complement each other and equally contribute to shape several kinds of identities: authorial, literary, national and cultural. Foregrounding the transnational aspects of key concepts such as poetics, literary voice, canon and tradition, the book is intended for scholars and students of Italian literature and culture, classical reception and translation studies.

With its two shifting focuses, on forms of classical tradition and forms of literary translation, the volume brings to the fore new configurations of 20th-century literature, culture and thought.

Si apre così quello che è stato definito il più bel libro di poesia del novecento italiano, *Il seme del piangere* di Giorgio Caproni. Questo saggio ne ricostruisce filologicamente la prima sezione, quella dei celebri *Versi livornesi*, delineando la figura leggendaria della protagonista Annina. Tra quadri poetici e percezioni sensoriali, l'autrice approfondisce la figura di Giorgio Caproni come moderno storyteller, capace infatti di suggestionare il lettore grazie al profilo di una donna che prima di essere moglie e madre fu ragazza d'ingegno e fantasia.

Containing almost 600 entries, this impressive 2-volume reference presents detailed and authoritative treatment of the field of Italian literature, with attention both to the

work and influence of individual writers of all genres and to movements, styles, and critical approaches.

This book pushes literary theory into unexplored grounds to articulate the modern and contemporary condition of interstitiality through an innovative discussion of literary and philosophical underpinnings and interpretation of works by Calvino, Caproni, Sereni and Svevo. It will appeal to Italianists and anyone studying Italian literature.

In 1948, the poet Eugenio Montale published his Quaderno di traduzioni and created an entirely new Italian literary genre, the “ translation notebook. ” The quaderni were the work of some of Italy ’ s foremost

poets, and their translation anthologies proved fundamental for their aesthetic and cultural development. Modern Italian Poets shows how the new genre shaped the poetic practice of the poet-translators who worked within it, including Giorgio Caproni, Giovanni Giudici, Edoardo Sanguineti, Franco Buffoni, and Nobel Prize-winner Eugenio Montale, displaying how the poet-translators used the quaderni to hone their poetic techniques, experiment with new poetic metres, and develop new theories of poetics. In addition to detailed analyses of the work of these five authors, the book covers the development of the quaderno di traduzioni and its relationship to Western theories of translation, such as those of Walter Benjamin and Benedetto Croce. In an appendix,
