Zamboni introduced the world's first electric powered ice resurfacers in February of 1960. As battery technology evolved, the 500 Series included electric powered production machines. In 1990, the Model 552 immediately set the standard for electric resurfacing equipment, demonstrating its quality and reliability. The Model 552AC combines decades of legendary electric performance and our ...

Model 552AC Electric | Zamboni - Zamboni | Clean Ice ...

An ice resurfacers is a vehicle or hand-pushed device used to clean and smooth the surface of a sheet of ice, usually in an ice rink. The first ice resurfacers was developed by American inventor and engineer Frank Zamboni in 1949 in the city of Paramount, California.
