A factory supercharged Ford Mustang had long been on the wish list of muscle car fans, but it took the passion of a single man to make it happen: O. John Coletti. And that was one name in the Ford Motor Company phone book guaranteed to stir up differing opinions among the huge auto manufacturer's upper management. Maverick or visionary? Tyrant or leader? One thing was certain about the mercurial Coletti: he had an unwavering faith in the value of high performance. And after almost single-handedly rescuing the Ford Mustang from discontinuation via a covert, renegade program, Coletti rode his notoriety into his own throne within Ford. He would go on to be head of the elite Special Vehicle Team, but in late 2000, Coletti stretched the boundaries of his own legend, abruptly canceling the division's highly-anticipated 2002 Mustang Cobra while disrupting marketing plans and enraging SVT's network of dealers. This is the untold story of how Coletti's performance mandate led to the creation of a car known as the \"Terminator\", the 2003-4 Ford SVT Mustang Cobra. How did a major American auto manufacturer secretly create a vehicle that turned the performance world on its ear? Iron Fist, Lead Foot takes readers deep behind the scenes for the answers.

The long-awaited story of the marine industry's most celebrated personality, Carl Kiekhaefer, the industrial Caesar of the Mercury marine industry empire. \"His obsession with success, and his legendary style made him the most extraordinary entrepreneur in the history of the industry.\"--Jack Reichert, Chairman, Brunswick Corporation.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the \"Beast\" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Come along on Mustang's wild ride to automotive success. In the early 1960s, Lee Iacocca - then director of the Ford division at Ford Motor Company - convinced Henry Ford II to produce a sporty four-seat car aimed at the emerging youth market. That car, essentially a reconfigured and re-skinned Falcon economy car, became the Ford Mustang, and it changed the automotive world like no other car before or since. In Ford Mustang: America's Original Pony Car, acclaimed Mustang writer Donald Farr celebrates this unbroken lineage of muscle. He chronicles the car's phenomenal first-year sales, the new pony car category it pioneered, and subsequent models that include the Mustang GT, Shelby GT350, Shelby GT500, Super Cobra Jet, Boss 302, and Boss 429 - all part of a line of American performance cars that continues to this day. Created in cooperation with Ford Motor Company and featuring some 400 photos from its historic and media archives, Ford Mustang is a must on the bookshelf of any muscle car or Ford aficionado.

NEW YORK TIMES BESTSELLER New York Times bestselling author and acclaimed linguist John McWhorter argues that an illiberal neoracism, disguised as antiracism, is hurting Black communities and weakening the American social fabric. Americans of good will on both the left and the right are secretly asking themselves the same question: how has the conversation on race in America gone so crazy? We're told to read books and listen to music by people of color but that wearing certain clothes is "appropriation." We hear that being white automatically gives you privilege and that being Black makes you a victim. We want to speak up but fear we'll be seen as unwoke, or worse, labeled a racist. According to John McWhorter, the problem is that a well-meaning but pernicious form of antiracism has become, not a progressive ideology, but a religion—and one that's illogical, unreachable, and unintentionally neoracist. In *Woke Racism*, McWhorter reveals the workings of this new religion, from the original sin of "white privilege" and the weaponization of cancel culture to ban heretics, to the evangelical fervor of the "woke mob." He shows how this religion that claims to "dismantle racist structures" is actually harming his fellow Black Americans by infantilizing Black people, setting Black students up for failure, and passing policies that disproportionately damage Black communities. The new religion might be called "antiracism," but it features a racial essentialism that's barely distinguishable from racist arguments of the past. Fortunately for Black America, and for all of us, it's not too late to push back against woke racism. McWhorter shares scripts and encouragement with those trying to deprogram friends and family. And most importantly, he offers a roadmap to justice that actually will help, not hurt, Black America.

John Reynolds Gardiner's classic action-packed adventure story about a thrilling dogsled race has captivated readers for more than thirty years. Based on a Rocky Mountain legend, Stone Fox tells the story of Little Willy, who lives with his grandfather in Wyoming. When Grandfather falls ill, he is no longer able to work the farm, which is in danger of foreclosure. Little Willy is determined to win the National Dogsled Race—the prize money would save the farm and his grandfather. But he isn't the only one who desperately wants to win. Willy and his brave dog Searchlight must face off against experienced racers, including a Native American man named Stone Fox, who has never lost a race. Exciting and heartwarming, this novel has sold millions of copies and was named a New York Times Outstanding Children's Book.

There are many words to describe Michael J. Fox: Actor. Husband. Father. Activist. But readers of *Always Looking Up* will soon add another to the list: Optimist. Michael writes about the hard-won perspective that helped him see challenges as opportunities. Instead of building walls around himself, he developed a personal policy of engagement and discovery: an emotional, psychological, intellectual, and spiritual outlook that has served him throughout his struggle with Parkinson's disease. Michael's exit from a very demanding, very public arena offered him the time and the inspiration to open up new doors leading to unexpected places. One door even led him to the center of his own family, the greatest destination of all. The last ten years, which is really the stuff of this book, began with such a loss: my retirement from Spin City. I found myself struggling with a strange new dynamic: the shifting of public and private personas. I had been Mike the actor, then Mike the actor with PD. Now was I just Mike with PD Parkinson's had consumed my career and, in a sense, had become my career. But where did all of this leave Me? I had to build a new life when I was already pretty happy with the old one... *Always Looking Up* is a memoir of this last decade, told through the critical themes of Michael's life: work, politics, faith, and family. The book is a journey of self-discovery and reinvention, and a testament to the consolations that protect him from the ravages of Parkinson's. With the humor and wit that captivated fans of his first book, *Lucky Man*, Michael describes how he became a happier, more satisfied person by recognizing the gifts of everyday life.

With the help of a rookie homicide detective, Camille must race to uncover the truth of Julia's life, and the events that led to her death. In doing so she will not only expose a high-level conspiracy involving political and financial corruption, she will also find herself in the midst of yet another deadly confrontation - this time with a killer hell-bent on preserving Julia's secret. She will eventually find both, but not before colliding head-on with a past that she wants nothing more than to leave behind. Book I of the Circle Trilogy Book II 'The Second Circle' will be available Spring 2014

One of the Washington Post's 20 Books to Read This Summer A riveting history of the epic orbital flight that put America back into the space race. If the United States couldn't catch up to the Soviets in space, how could it compete with them on Earth? That was the question facing John F. Kennedy at the height of the Cold War—a perilous time when the Soviet Union built the wall in Berlin, tested nuclear bombs more destructive than any in history, and beat the United States to every major milestone in space. The race to the heavens seemed a race for survival—and America was losing. On February 20, 1962, when John Glenn blasted into orbit aboard *Friendship 7*, his mission was not only to circle the planet; it was to calm the fears of the free world and renew America's sense of self-belief. *Mercury Rising* re-creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon. Drawing on new archival sources, personal interviews, and previously unpublished notes by Glenn himself, *Mercury Rising* reveals how the astronaut's heroics lifted the nation's hopes in what Kennedy called the "hour of maximum danger."
