Teaching outside the classroom improves pupils' engagement with learning as well as their health and wellbeing, but how can teachers link curriculum objectives effectively with enjoyable and motivating outdoor learning in Key Stage 1? The National Curriculum Outdoors: KS1 presents a series of photocopiable lesson plans that address each primary curriculum subject, whilst enriching pupils with the benefits of learning in the natural environment. Outdoor learning experts Sue Waite, Michelle Roberts and Deborah Lambert provide inspiration for primary teachers to use outdoor contexts as part of their everyday teaching and showcase how headteachers can embed curriculum teaching outside throughout the school, whilst protecting teaching time and maintaining high-quality teaching and performance standards. All of the Key Stage 1 curriculum lessons have been tried and tested successfully in schools and can be adapted and developed for school grounds and local natural environments. What's more, each scheme of work in this all-encompassing handbook includes primary curriculum objectives; intended learning outcomes; warm-up and main activities; plenary guidance; natural connections; ICT and PSHE links; and word banks.
