Human nature is a concept that denotes the fundamental dispositions and characteristics—including ways of thinking, feeling, and acting—that humans are said to have naturally. The term is often used to denote the essence of humankind, or what it 'means' to be human. This usage has proven to be controversial in that there is dispute as to whether or not such an essence actually exists.

[Table of Contents: The study of human nature](#)

Human nature is the concept that there are a set of characteristics, including ways of thinking, feeling and behaving, that all 'normal' human beings have in common. The branches of science associated with the study of human nature include sociology, sociobiology and psychology, particularly evolutionary psychology and developmental psychology.

[Human nature | Psychology Wiki | Fandom](#)

In the 1800 ' s Darwin ' s theory focused on humans ' primate heritage and began a new period of questioning. From this came the modern scientific study of humans in fields as diverse as biology, anatomy, physiology, genetics, psychology, sociology and anthropology. From these fields have come modern theories of human nature.

[Why is it Especially Important to Understand " Human Nature](#) ...

Philosophy and the Science of Human Nature pairs central texts from Western philosophical tradition (including works by Plato, Aristotle, Epictetus, Hobbes, Kant, Mill, Rawls, and Nozick) with recent findings in cognitive science and related fields.

The Study of Human Nature, 2/e offers substantial selections illustrating the ten perspectives discussed in Ten Theories of Human Nature, 4/e--The Bible, Hinduism, Confucianism, Plato, Kant, Marx, Freud, Sartre, B.F. Skinner's behaviorism, and Konrad Lorenz's ethological diagnosis of human aggression. The Islamic tradition is represented by a selection from the 20th-century Iranian philosopher Ayatullah Murtaza Mutahhari.

### ~~The Study of Human Nature—Paperback—Leslie Stevenson ...~~

The human nature is that assortment of characteristics that constitute and define humanity. Human nature makes us inherently human and distinct from all other creatures. Human nature includes the capacity to create, reason, love, and experience a wide range of emotions. Such a capacity is found in no other form of life.

### ~~What is human nature?—CompellingTruth.org~~

page 36 note 3 Of Clarke, Lavater writes: ‘ Good nature, unconfused brilliant science, quiet passionless reflection, the power of attracting and holding every object are the characteristics of this face which are most remarkable and immediately strike the eye. Anyone who could hate such a face would have to work against his own instinct, his own inner, innate physiognomical feeling ’ (1 62 – 3).

human nature... Human Nature Margaret Mead once said, “ Human nature is potentially aggressive and destructive and potentially orderly and constructive. ” (brainyquote.com) Evil and good are both in human nature. There are times when people show their evil side and later they show their good side. These two combinations make up someones human nature. Al...

### ~~Free Essay: The Study of Human Nature~~

These are the discoveries — typically biological, psychological, or anthropological — that find immutable characteristics in human nature. Conservatives are drawn to biological studies that emphasize our irrationality, our aggressive natures, our genetic differences, and our groupishness.
