Winner of the André Simon Food Book Award 2020 "Caroline Eden is an extraordinarily creative and gifted writer. Red Sands captures the sights, tastes and feel of Central Asia so well that when reading this book I was sometimes convinced I was there in person. A wonderful book from start to finish." Peter Frankopan, author of The Silk Roads /"Caroline Eden, whose book Black Sea was showered with awards, is on the road again, this time travelling through the heart of Asia. It ' s not your usual cookbook, it ' s more a travel book with recipes, the recipes acting as postcards which she sends as she meets new characters, most of them involved with food... Eden travels quietly and lets you in on every encounter and every bite. A moving... as well as a fascinating read." Diana Henry, Telegraph "Red Sands follows in the footsteps of Caroline Eden's previous volume Black Sea. Both are pleasures to read, triangulating journalism, literary writing, and cookbookery. The recipes are part of the reporting, and Eden describes them as edible snapshots." Devra First, Boston Globe Red Sands, the follow-up to Caroline Eden ' s multi-award-winning Black Sea, is a reimagining of traditional travel writing using food as the jumping-off point to explore Central Asia. In a quest to better understand this vast heartland of Asia, Caroline navigates a course from the shores of the Caspian Sea to the sun-ripened orchards of the Fergana Valley. A book filled with human stories, forgotten histories and tales of adventure, Caroline is a reliable guide using food as her passport to enter lives, cities and landscapes rarely written about. Lit up by emblematic recipes, Red Sands is an utterly unique book, bringing in universal themes that relate to us all: hope, hunger, longing, love and the joys of eating well on the road.

The crisis of unsustainability is, above all else, a crisis of governance. The transition to a more sustainable world will inevitably require radical changes in the actions of all governments, and it will call for significant changes to the lifestyles of individuals everywhere. Bringing together some of the world's most highly regarded experts on governance and sustainable development, this book examines these necessary processes and consequences across a range of sectors, regions and other important areas of concern. It reveals that the governance of sustainable development is politically contested, and that it will continue to test existing governance systems to their limits. As an assessment of existing policy practices, it will be of great interest to all those who are preparing themselves - or their organisations - for the sustainability transition.

In this best-selling sequel to Fairy Dust and the Quest for the Egg, Newbery Honor-winning author Gail Carson Levine and illustrator David Christiana spin a riveting fairy tale about the dangers of dreams come true.
