Buy Urban Ecosystems (9780415697958) (9780415698030): Understanding the Human Environment: NHBS - Robert A Francis, Michael A Chadwick, Routledge

Urban Ecosystems: Understanding the Human Environment ...

Ecology in cities examines how the characteristics of the urban landscape mosaic, and various parts of it, affect human health and well-being. Human consumption and behaviour in one urban area can affect the health and well-being of people in other, such as through export of waste and trans-boundary emissions and pollutant flows.

Urban ecology and urban ecosystems: Understanding the ...

Urban ecosystems as public health realms. Human beings, like other organisms, are influenced by the selective action of the urban environment. Social structure and interactions, physiology and health, morphology (e.g. increased obesity), and even long-term changes in genetics of human urban residents, may be associated with urban living [20, 4 • •]. The diversity of conditions within built-up areas creates many risk factors possibly affecting human health and well-being.
