delves exclusively into the spin-off conversions based on the VW Panelvan, Kombi and Microbus that became known simply as VW Campers. Packed with original marketing images, including unusual, discontinued models this book will fascinate any VW fanatic.

Learn how to rebuild a Volkswagen air-cooled engine! This guide will teach the reader how to troubleshoot, remove, tear down, inspect, assemble, and install Bug, Bus, Karmann Ghia, Thing, Type-3, Type-4, and Porsche 914 engines. All models from 1961 on up are included.

Demand for Bay window buses is booming with rocketing prices to match. This is the first and only book to address the needs of owners looking to save a Bay bus. The book is packed with clear color photographs showing step by step real life restoration.

The nineteenth edition of this classic automotive manual helps dedicated VW owners fight the war against rust, body rot, and engine failure to keep their prized cars alive, with advice on caring for Bugs, Karmann Ghias, vans, and campers. Original. 30,000 first printing.

Using the trusted Haynes practical approach, this all-colour manual follows the restoration of a 1971 Panel van and a 1979 Devon camper from beginning to end. Featuring hundreds of photographs and helpful diagrams where necessary, this is the only guide to restoring (or part-restoring) a "Bay" you will ever need.
