When seeing your partner, you might notice your heart beating faster and faster. "Part of the whole attraction process is strongly linked to physiological arousal as a whole," Timothy Loving, assistant professor of human ecology at the University of Texas in Austin, explained to CNN Health. "Typically, that's going to start with things like increased heart rate, sweatiness and so on."

~~What really happens to your body when you're in love~~

Never take love for granted, because you will never know if you just don't take the chance. I have made my mistakes, and I lost my husband. When there is love, don't put it aside. Take it by the hands and let God help you. Don't let him go like I did mine. You may never know if you will come across that one person who's willing to be by your side.
